

RUSSIAN PRESS COUNSEL PEACE.

Russia Would Never be a Mover
For Combination of Powers to
Exert Pressure on Japan.

WITTE'S INSTRUCTIONS DEFINITE

His Powers Are Full, and is Absolute
Master of Country that Has
Appointed Him.

St. Petersburg, Aug. 1, 1:35 p. m.—The Russ, the Novoye Vremya, and other representatives of the Russian press, today counsel patience for the brief interval before the meeting of the peace plenipotentiaries and dwell on the futility of attacking men of straw before it is definitely known what terms the Japanese propose.

"M. Witte has definite instructions as to what demands will be absolutely unacceptable and will know what course to adopt if such demands are presented. We are ignorant of the Japanese proposals, but will know what they are in a few days. Meanwhile let us wait."

Discussing the supposition that a combination of the powers might be formed to exert pressure for the modification of extortionate Japanese demands, N. N. Nesteroff, the spokesman of the foreign office, in an interview in the Gazette, declared that however much such a proposal might be advantageous to other powers, Russia would be the mover of such a project. He believes that all questions connected with the settlement of the war should be decided directly between the two countries interested. China, he said, had advanced no claim to compensation for losses sustained on account of Manchuria being the theater of war, but to such claims of other powers, he said, he would be ready to respond.

Discussing the question of credentials, M. Nesteroff said that M. Witte's powers were greater than M. Witte himself had stated, and were equivalent to a full power of attorney and that in the conduct of negotiations the plenipotentiary will appear as the absolute master of the country which he represents. M. Witte, he said, had been instructed as to maximum of concessions and if the Japanese demands exceeded those, there would be nothing to do but to break off the negotiations.

The Soviet also declares that China is without standing in the matter regarding Manchurian damages and that Russia never will pay for the privilege of shedding her blood in a country to which she was called by the "Boxer" outrage.

The Chinese minister at Paris, Mr. Soueig, has arrived in St. Petersburg. He had a conference at a resort in Finland today with the Chinese minister to Russia, Mr. Hoo.

HAPPY TO VISIT AMERICA.
On Board Steamship Kaiser Wilhelm Der Grosse, via Wireless Telegraph Station at Shuonnet, Mass., Aug. 2.—After a good passage across the Atlantic, Sergius Witte, Russian envoy to the peace conference with the Japanese representatives at Portsmouth, N. H., is in perfect health.

Stocking of his approaching arrival on American soil, M. Witte said: "I am happy to visit America, which country I am most anxious to know. My only regret is that I cannot speak English, as I should like thoroughly to appreciate the country whose progress and development are so interesting and instructive."

"I shall also be glad to have personal intercourse with President Roosevelt, who has reached such a prominent position as a statesman, and to extend him the greetings of Emperor Nicholas. It has also been stated that I am to test the ground for floating a Russian loan in America and to discuss the relations between the two countries especially regarding commercial affairs. My only mission is the negotiations for peace, but I am quite ready to express my personal opinion on questions affecting the relations between Russia and America, with a view to further strengthening the traditional friendly feeling between St. Petersburg and Washington."

IMPROPER USE OF MAULS.

John C. Hanley Arrested Charged With Fraud.

St. Paul, Aug. 1.—John C. Hanley, publisher of the Alliance Advocate and well known throughout the west as a leader in the farmers' alliance and other political movements, has been arrested by United States Marshal Grimshaw on a charge of using the maul in connection with a scheme to defraud.

The charge is that in advertising matter sent through the mails of the east, Hanley was selling stock in the Consolidated Farm and Ranch company, which represented that this company had acquired the property of the Montana Cattle Company, now in the hands of a receiver, which representation is claimed to be false. His hearing is set for Aug. 16.

The consolidated company was organized a few months ago under the laws of South Dakota with Hanley as president and a capital of \$100,000. The government claims that the new company has practically no assets, and that in order to induce investors to buy stock in the new company the promoter pretended to have acquired the property of the old company.

The Montana company is now in the hands of a receiver and is claimed to have assets of only \$40,000, with an encumbrance in the shape of a \$17,000 mortgage. In some of the literature sent out by Hanley it is represented that the receiver has property worth \$107,350.

Mrs. Norton recently arrived in Chicago from California. She brought her two daughters, Cecile and Marie, with her. The widow proposed to establish her matrimonial connection with the deceased by witnesses of the marriage. The marriage is denied by the relatives charged with conspiracy.

Albany, N. Y., Aug. 1.—Gov. Higgins expressed himself in favor of the proposed uniformity of state commissioners to secure uniformity of divorce legislation throughout the country. In a letter to Gov. Pennacker, of Pennsylvania, he says:

"I have no authority to appoint delegates to a congress to meet in Washington to consider the subject of divorce, but I think the matter falls properly within the jurisdiction of the commissioners for the promotion of uniformity of legislation in the United States and I have referred your communication to Walter S. Logan of 27 Williams street, New York City, who is the senior commissioner in the state, and have requested him to communicate with his colleagues, and if possible to attend such a congress should it meet, on behalf of the state of New York."

GOLD IN RENO.

Found in Paying Quantities in Bed of Truckee River.

Reno, Nev., Aug. 1.—Gold was found in paying quantities in the bed of the Truckee river today, and all afternoon hundreds of gold seekers have been at work in the river. The scene of the find is in the bed of the proposed new bridge across the stream, located practically in the heart of this city.

W. W. Chesterfield, a local capitalist, and Lee J. Davis, of the Farmers and Merchants' bank, made the find, paying out quite a quantity of gold before the news spread and the rush started. There is talk of locating placer claims in the stream.

Heretofore it has not been thought the river bed contained gold and to-day's discovery may lead to further prospecting.

Relations Between Louisiana and
Mississippi Have Become Much
Strained.

PELICAN STATE IS INVADIED.

Mississippi Soldiers Employed as
Guards Have Gone Into Louisiana
With Arms.

New Orleans, Aug. 1.—The relations between the states of Louisiana and Mississippi have reached an acute stage and from indications tonight it will change from interviews about the concealment of cases to a much more serious matter. From information that has come to hand, the dignity of the state of Louisiana has been offended by an armed invasion from the sister state, and this morning Gov. Blanchard communicated with the captain of the naval brigade, which has a fully equipped gunboat, with a view of sending the gunboat to the borders to protect Louisiana citizens from further indignities.

Mississippi has five armed boats patrolling the coast to prevent fishermen from breaking through the quarantine lines. These vessels are also assisted by the United States revenue cutter Winona. The Mississippi boats will not allow Louisiana fishermen to enter Mississippi sound east of St. Joseph light. From reports received here it appears that one of these boats came into Lake Borgne, which is distinctly Louisiana territory, and one report says it came up to the mouth of the Mississippi river, which extends from the lake to the Mississippi river, a distance of only four and a half miles.

The naval brigade vessel Stranger draws too much water for service in that vicinity, but a light draft boat was impressed, armed with a howitzer or two and manned by officers from the brigade, and will be sent to prevent further aggressions.

Some of the territory now patrolled by the Mississippi boats is now in dispute before the supreme court of the United States, both states having laid claim to it since the legislature of Louisiana created an oyster commission and passed laws to protect the valuable oyster beds in that vicinity. The state board of health received official notice of the appearance of fever in three other parishes today, but as the victims are all Italian or Australian, and the connection with the infected district in New Orleans has been established, no alarm is felt over the news.

Later developments in the controversy between Louisiana and Mississippi do not lessen the seriousness of it. Commander Bostwick of the naval brigade and Gen. Perillat are preparing a report to the governor following their investigation, which will be continued. It is now reported that one of the naval boats drove a Southern Yacht club yacht far into Lake Pontchartrain.

GUARDS CROSS STATE LINE.

Memphis, Tenn., Aug. 1.—A special to the Commercial-Appeal from Baton Rouge, La., says:

A clash between the Mississippi and Louisiana authorities over quarantine regulations is imminent. A private dispatch was received in the city today stating that Mississippi soldiers employed as guards in the border between Louisiana with arms, and that boats were patrolling the mouth of the Mississippi lake and Pearl river, off the Louisiana coast, to prevent Louisiana boats from leaving.

Gov. Blanchard directed Brig-Gen. Perillat, of his staff, and Capt. J. W. Bostwick, commander of the naval brigade, to investigate and report. Gov. Blanchard also telegraphed Gov. Vardaman of Mississippi as follows:

"Have reliable information that Mississippi quarantine guards, armed, crossed over to Louisiana side at Pearl river. I do not believe this was on orders, but it is a serious matter. I have no authority to appoint delegates to a congress to meet in Washington to consider the subject of quarantine, but I think the matter falls properly within the jurisdiction of the commissioners for the promotion of uniformity of legislation in the United States and I have referred your communication to Walter S. Logan of 27 Williams street, New York City, who is the senior commissioner in the state, and have requested him to communicate with his colleagues, and if possible to attend such a congress should it meet, on behalf of the state of New York."

"A patrol boat of the state of Mississippi patrolled Lake Borgne and, after prohibiting fishermen from fishing in the lake, is now guarding the exit of Lake Borgne canal, preventing boats from coming out. It is by your orders, or those of such authorities of your state? No such state of affairs can be tolerated. You have a right to prohibit fishing and landing on Mississippi shores, but not from navigating lake, sound and gulf channels which are navigable waters of the United States."

Gov. Blanchard also telegraphed President Southerland that he would take prompt steps to protect Louisiana's rights.

LABOR SLUGGERS

In Chicago Maintain a Place Where They Inflict Torture.

Chicago, Aug. 1.—Apparent evidence that labor sluggers maintain in Chicago a place where systematic torture is meted out to those who incur the displeasure of the sluggers has just come to light in the strange case of William N. Wilder. Wilder was formerly an army officer and at the time of the recent teamsters' strike was claim agent for a Chicago package express company. He disappeared July 5, was held captive for three weeks and was then set at liberty, half starved and so dazed that he has not been able to give a coherent account of his captivity.

He is a bold, outspoken fellow of 37 who gloried in his physical ability to take care of himself and defied pickets or sluggers to intimidate him.
